

## **MSEM@Beijing – Summer Research Internship at NJIT**

---

In July 2009 MSEM@Beijing students will have an opportunity to participate in a 3 week research internship at our Newark campus. Features of the program are as follows:

- Students participate in individual research projects with selected faculty. Project outlines are sent to student before arrival so that they may begin their research experience almost immediately.
- 
- Presentation of their research work in a poster symposium
- Company and plant tours to selected local companies as a team.
- Interaction with current MSEM students
- Flexible time for sightseeing

All lodging and dining arrangements organized on the NJIT campus.
